### 1. What is a cookie?

A cookie is a small text file that is placed on your computer, smartphone or other device when you visit a website. A cookie allows its issuer to identify the terminal in which it is stored, during the period of validity or registration of the cookie.

### 2. Why do we use cookies?

Cookies are used for a number of purposes. They help to make some parts of a website work or work more efficiently, as well as to provide information to the owners of a website about how it is used.

Some of the cookies used on our website are essential for it to function properly, but we also use some non-essential cookies that help us to improve the overall performance of our website. Cookies allow you to choose your connection preferences (e.g., language), to register for our newsletter or to register for conferences, workshops, roundtables or other events we organize or sponsor.

The cookies we issue also allow us to:

- a. identify the terminal and the web browser from which you access our website;
- b. adapt the presentation of our website to the display preferences of your terminal (e.g., display resolution, operating system used) when you visit our website;
- c. establish statistics and volumes of frequentation and use of the various elements composing our website (sections and contents visited, source, last time any digital content was accessed), thus enabling us to improve the interest and ergonomics of our services and our website;
- d. identify the region / country from which you access our website;
- e. memorize information relating to a form which you filled on our website;
- f. implement security measures.

### 3. What cookies do we use?
